

Trails Maintenance work

TRAIL WORK 2016

T3.7

- Provided letter of support to get OFSC/NTC grant
- \$3000 contribution
- Why is T3.7 important ...
- Open 2017

Old Logging

- Touch up for winter use.. 3 way split. \$557 for OF4WD
- Multi use considerations... and reality going forward.

Salmon Burn trail

- Project was originally to utilize unused wood from T3.7 for a bridge repair
- Unimog.. to retrieve wood from T3.7 – OF4WD/HATVA
- BDSC decided to go with new wood and original specs.
- \$2000 allocated for this year.

The list was quite light for 2016, but, it is not unusual for organizations to have high and low spend years.

A couple of photos of the Salerno Creek bridge on the Salmon Burn trail that requires replacing :

The plans for 2017 will likely be significantly increased. We know we will likely be partnering on a complete bridge replacement on Salmon Burn trail and our members have also already identified required culvert replacements. The work list will flesh out further when meet with our ATV/Snowmobile trail partners in the next couple of months.

TRAIL WORK 2017
